Professional Summary

Frontend Developer skilled in React, TypeScript, and Python/FastAPI. Experienced building full-stack web applications with real-time features and database integration. Strong background in enterprise infrastructure and system optimization.

Work Experience

Frontend Developer

Lexcode Inc., Philippines | May 2024 - Present

- Contributed to building 3 full-stack web applications using React, TypeScript, Next.js, FastAPI, Python, and MongoDB, serving 500+ daily active clients.
- Worked with team to engineer real-time features using WebSocket technology, reducing translation latency by 60% and supporting 100-1,000 concurrent clients.
- Worked with designers to develop responsive, mobile-first interfaces with Tailwind CSS, achieving 95%+ mobile usability score on Google Lighthouse.
- Implemented dynamic pricing calculations, discount algorithms, and multi-currency support (PHP/USD) working alongside backend developers, processing 30+ quotations monthly with 99.99% accuracy.
- Contributed to building automated document generation with PDF creation, email integration, and QR code verification, reducing manual processing time by 75%.
- Created RESTful APIs with CRUD operations, authentication, and role-based access control, managing 5,000+ database records.
- Implemented Redux and Context API for state management across production applications, managing complex application state and ensuring predictable data flow.
- Wrote unit tests using Jest to ensure code quality, reliability, and maintainability of React components and application logic.
- Worked with designers to maintain WordPress/Elementor Pro CMS managing 15+ pages with 2,000+ monthly visitors and 3-second load times.

Middleware Administrator

Metrobank, Taguig City | January 2023 - May 2024

- Managed enterprise-grade Oracle Fusion Middleware and WebLogic Server infrastructure, ensuring 99.9% system uptime and reliability.
- Monitored system performance metrics, diagnosed complex technical issues, and implemented solutions to maintain optimal server performance.

Skills

Frontend Languages

HTML, CSS, JavaScript, TypeScript, React, Redux, Next.js, Vite, Tailwind CSS, Jest, Material UI (MUI)

Backend Languages

Python, REST APIs, NodeJS, PHP, Linux

Databases
